### **COVID-19 (Coronavirus) Statement**

The Rhode Island Golf Association has been closely monitoring the health and safety concerns regarding COVID-19 (Coronavirus).

The well-being of each and every person in our association is important to us. From our employees to our members and member clubs.

On a daily basis, conversations continue about the fluidity of COVID-19. The RIGA recommends following the guidelines of the CDC (Centers for Disease Control and Prevention) and Rhode Island Department of Health.

At this time, the RIGA will keep following its usual operating schedule. We will continue to look after the situation and update all members and clubs should any changes occur via our website and our social media channels.

A decision about our events will be made as soon as we get closer to our season.

With the proper awareness, we hope that everyone can stay safe during this time and minimize any further spreading of COVID-19.

If any questions arise, contact the RIGA at [dbalthaser@rigalinks.org](mailto:dbalthaser@rigalinks.org).
