

April 6, 2020

The RIGA is committed to the well-being of each and every person in our association. From our employees to our members and member clubs.

In light of everything that has been going on with the COVID-19 Pandemic, the RIGA will be canceling all events through May 15 with the intention of rescheduling each one.

This is a serious time we are in and we tried to wait as long as we could since our season starts later than most Associations. But at this point, we know it is the right thing to do for the safety and well-being of everyone in Rhode Island. Based on strong recommendations from the nation's best health experts and organizations.

Stay tuned to our **website** and all of our social media channels (**Twitter**, **Instagram** and **Facebook**) for further updates.

Decisions on events after May 15 will be made once we get closer to that time.
